Dear Greg:

This letter is somewhat tardy but I wanted to express our appreciation for the fine work that Lynn's Landscaping did in the design and construction of the patio area at our residence in PineBrook. Our special thanks to Tony for his help in the design details and especially to you for the oversight of the implementation to ensure things were done correctly and in a timely fashion. My wife, Paula, was especially pleased with the design and construction of the pergola and we thank everyone involved for all their hard work.

We would be pleased to show the results of your efforts to any who might have an interest in seeing first hand your quality workmanship. Just call us at 282-282-9905 to arrange a viewing time. Thanks again!

Sincerely,

  
Billy J. Thompson
